

## **HeadWay Victoria transitions Epilepsy Services to the BC Epilepsy Society**

October 31, 2019

FOR IMMEDIATE RELEASE

---

VANCOUVER ISLAND — HeadWay | Victoria Epilepsy and Parkinson's Centre Society is pleased to announce an agreement with the BC Epilepsy Society to transfer our epilepsy program to their organization.

Effective November 1, the BC Epilepsy Society will assume responsibility for delivery of HeadWay's epilepsy programs. Deirdre Syms will continue to work out of the same office at 202 – 1640 Oak Bay Avenue and will continue doing the same amazing work on Vancouver Island that you have come to know and trust.

**BC Epilepsy  
Society**

Although this was not an easy decision, we believe that it is the best option moving forward for our clients. As a provincial organization, the BC Epilepsy Society will be able to provide greater resources and support to clients on Vancouver Island. They are involved in several exciting projects that will benefit those living with epilepsy in all regions of BC.

It has been our true pleasure serving our epilepsy clients on Vancouver Island and working with Deirdre Syms on a daily basis. We are excited to have her remain on our premises and wish her well with her new organization.
